## FLUX GLOVES

- Thor's lightest, coolest, and least restrictive glove; designed for riders that want minimal restriction and maximum interface with the bike
- Dimple mesh and Q-span construction for maximum flexibility and airflow
- Pre-curved shape eliminates bunching in palm area
- Perforated palm for heat discharge
- Stretch-mesh finger gussets for breathability
- Asymmetrical Light-Prene cuff with integrated flex panel for a secure fit with maximum mobility

**SUG. RETAIL.....\$29.95**

## CORE GLOVES

- The best-fitting, most performance-oriented glove Thor's ever made
- Air-mesh backhand for breathability and comfort
- Two-way stretch across knuckles and fingers for improved flexibility
- Pre-curved grip fingers reduce fatigue and prevent bunching in the palm area
- Dimple mesh construction for increased airflow
- Integrated top-of-hand TPR detail
- Tacky silicone print on fingertips and palm overlay for added grip and increased lever control
- TPR hook-and-loop wrist closure system
- Direct-inject rubber on knuckles provides protection
- Clarino® padded palm and thumb overlay for durability and comfort

## DB-02 OFF-ROAD SPEEDOMETER

- Specifically designed for use on dirt bikes and ATVs
- Internal battery allows use on models without 12V power source
- Easy-to-read digital LCD display with white backlight
- Displays speed (0-225 mph; 0-360km/h), digital and bar graph tachometer, odometer, dual trip meters, hour meter, thermometer and volt meter
- Indicator lights for three-stage shift warning, adjustable speed warning and temperature warning
- Keeps record of top speed, max rpm and top temperature
- Measures: 2.6" H x 4.28" W x 1.05" D (66.7x108.7x26.8mm)
- Includes gauge bracket, active speed sensor, speed sensor brackets and magnet and two temperature sensors
- Plug-in indicator kit available separately

SUG. RETAIL.....**\$221.95** PART # **2201-0082**

## DB-02R STREET/RACE SPEEDOMETER

- Easy-to-read digital LCD display with white backlight
- Displays speed (0-225 mph; 0-360km/h), digital and bar graph tachometer, odometer, dual trip meters, hour meter, thermometer, volt meter and fuel level
- Indicator lights for three-stage shift warning, adjustable speed warning and temperature warning
- Keeps record of top speed, max rpm and top temperature
- Additional features include target speed timer, target distance timer and top speed timer
- Measures: 2.6" H x 4.28" W x 1.05" D (66.7x108.7x26.8mm)
- Includes gauge bracket, active speed sensor, speed sensor brackets and magnet and two temperature sensors
- Plug-in indicator kit available separately

SUG. RETAIL.....**\$239.95** PART # **2201-0083**

## DL-02S SPEEDOMETER

- Easy-to-read digital LCD display with blue backlight and chrome housing
- Two easy-to-access function buttons on front of instrument
- Displays speed (0-160 mph; 0-260 km/h), odometer, trip meter, riding time and fuel level
- Records average speed and top speed
- Measures: 2.17" dia. (55mm) without bezel; 2.55" dia. (64.8mm) with bezel
- Includes gauge bracket, active speed sensor, speed sensor bracket and speed sensor magnet

SUG. RETAIL.....**\$169.95** PART # **2201-0090**

## RX2-NR GP-STYLE RACE TACHOMETER

- Easy-to-read gauge with dial-type tachometer and digital display
- Blue back-lit dial with lighted needle shows tachometer with 0-16000 rpm range; light point shows max rpm that is regularly reached
- Digital display shows tachometer and thermometer
- Programmable shift light
- Adjustable high temperature warning
- Keeps record of max rpm and top temperature
- Measures: 4" H x 5.35" W x 2.05" D (100.7x135.7x52mm)
- Includes gauge bracket and temperature sensor

SUG. RETAIL.....**\$199.95** PART # **2201-0085**

## DL-02R TACHOMETER

- Easy-to-read digital LCD display with blue backlight and chrome housing
- Two easy-to-access function buttons on front of instrument
- Displays adjustable tachometer (10,000, 15,000 or 20,000 rpm range), thermometer and clock
- Measures: 2.17" dia. (55mm) without bezel; 2.55" dia. (64.8mm) with bezel
- Includes gauge bracket and temperature sensor

SUG. RETAIL.....**\$169.95** PART # **2201-0091**

## PLUG-IN INDICATOR KIT FOR KOSO DB-02 AND DB-02R SPEEDOMETERS

- Docks with DB-02 and DB-02R speedometers to add additional indicators
- Unlike other indicator kits, this model can be custom built to match any use
- Eight indicator light slots accept any of the twelve available symbols: turn signal, turn signal (option 2), hazard, high beam, low beam, fuel, water, neutral, reverse, engine, oil, maintenance and solid black
- Measures: 2.85" H x 5.57" W x .73" W (72.4x141.5x18.4mm)

SUG. RETAIL.....**\$39.95** PART # **2201-0084**

## PLUG-AND-PLAY KITS AND ADAPTER BOARDS FOR KAWASAKI EX250 NINJA

### FOR USE WITH KOSO RX-2 AND RX-2N SPEEDOMETERS

- Allows use of Koso RX-2 and RX-2N gauges on Kawasaki EX250 Ninja
- Plug-and-play kits include wiring harness and all necessary sensors

DESCRIPTION	PART #
RX-2 adapter board	<b>2201-0086</b>
RX-2 plug-and-play kit	<b>2201-0088</b>

SUG. RETAIL.....**\$49.95**

RX-2N plug-and-play kit	<b>2201-0089</b>

## MINI TACHOMETER

- Compact, easy-to-read LCD display
- Displays tachometer within 0-15000 rpm range
- Records max rpm
- Measures: 1.33" H x 2.42" W x .61" D (33.7x61.5x15.6mm)

SUG. RETAIL.....**\$59.95** PART # **2211-0089**

## GP-STYLE UNIVERSAL TACHOMETER WITH TEMPERATURE GAUGE

- Contrasting, easy-to-read black background with blue backlight
- Stepper motor keeps dial needle stable through the heaviest vibrations
- Gauge dial shows tachometer with 0-9000 rpm range; adjustable by units of 100 rpm
- Blue-backlit digital display shows water temperature
- Gauge measures 55mm (2.17") dia. without bezel; 61mm (2.4") dia. with bezel
- Includes gauge bracket and water temperature sensor

SUG. RETAIL.....\$152.95

PART #

2211-0090

## MINI LAP TIMER

- Complete kit includes lap timer, IR beacon and IR receiver
- Internal battery allows use with or without 12V power source
- White backlight for easy viewing during late day laps
- Indicator lights for best lap check and signal check
- Lap timer measures: 1.75" H x 3.43" W x .82" D (44.2x87.2x20.85mm)
- IR beacon measures: 1.46" H x 5" W x 2.95" D (37x127.3x75mm)
- IR receiver measures: .65" H x 2" W x 2" D (16.4x50x50.7mm)

SUG. RETAIL.....\$229.95

PART #

2130-0057

## GEAR INDICATOR

- Compact, easy-to-read blue LCD display
- Indicates selected gear from neutral to sixth gear
- Programmable shift light
- Measures: 1.97" H x 1.18" W x .95" D (50x30x24mm)
- Fits models listed below

SUG. RETAIL.....\$137.95

## SUPER SLIM THERMOMETER

- Compact, easy-to-read LCD display
- Displays temp within a 32-248°F range with a resolution of 0.1°F
- Visual high temp warning
- Measures: 1.06" H x 2.22" W x .43" D (27x56.4x11mm)

SUG. RETAIL.....\$49.95

PART #

2212-0312

## SUPER SLIM VOLT METER

- Compact, easy-to-read LCD display
- Displays voltage within 8-18V range with a resolution of 0.1V
- Visual low voltage warning
- Measures: 1.06" H x 2.22" W x .43" D (27x56.4x11mm)

SUG. RETAIL.....\$39.95

PART #

2212-0311

## HEATED GRIPS

- Durable construction and plenty of heat output
- Five levels of adjustment
- Set includes connecting wire with heater switch and handlebar bracket
- Included wiring harness will not interfere with throttle or brake control
- For use with battery
- Available for thumb-type throttles (7/8" and 7/8"); does not include heated thumb pad

SUG. RETAIL.....\$59.95

PART #

0631-0064

## SPROCKETS

- Steel front sprockets are precision manufactured and induction hardened to precise tolerances to improve concentricity and provide a stronger, quieter and longer-lasting sprocket
- Plated to resist corrosion and provide the factory works look
- Drilled lightening holes reduce rotating mass
- Rear sprockets are available in aluminum, F5 PTFE black hardcoat or CAT5 aluminum
- Aluminum rear sprockets are the standard in the race industry with tight tolerances and a unique tooth design
- F5 PTFE black rear sprockets are built for endurance and are hard anodized with a jet black dye, then coated with PTFE for added lubricity
- CAT5 rear sprockets are CNC manufactured to the tightest tolerances and feature a unique tooth design
- CAT5 rear sprockets are also completely color anodized, excluding sweeps, mud grooves and teeth for a flash of color

## FRAME SLIDER BASE FOR BMW S1000RR 10

- The ultimate in sportbike protection
- Patented revolutionary two-piece design accepts slider pucks (sold separately; see 2010 Parts Unlimited Street catalog)
- Bracket type base requires no fairing modification and is suggested for stock fairings
- When a crash occurs, there is no need to replace the entire set; simply replace the slider puck
- Shorty puck is also available when aerodynamics are a top priority

NOTE: Be sure to order TWO Frame Slider PUCKS to accompany your Frame Slider BASE (pucks do not include bolts).

SUG. RETAIL..... **\$43.95**

#### PART #

## MAGNUM ELECTRIC HORN SET

- Featuring an output of 118 dB, these are the loudest electric horns you can buy
- Direct replacement for most 12V electric horns
- Set includes two chrome finish horns (one high and one low tone), mounting brackets and installation instructions

**NOTE:** The use of a 30A relay (not included) to achieve maximum volume and protect the stock electrical system is recommended.

**SUG. RETAIL.....\$79.95**

**PART # 2107-0067**

## MULTI APPLICATION AIR HORNS

- Waterproof dual-trumpet air horns give a loud warning blast of 128 dB
- Trumpets, mounts and brackets are triple-plated chrome
- Includes horn assembly, air compressor, relay, simple wiring, cone-shaped dust/bug covers and complete installation instructions
- Air horns mount to the front right side engine guard; air compressor mounts to the frame behind the lowers
- Uses the stock horn button; bolt-on, plug-in installation

## CUSTOM LED TURN SIGNAL MIRRORS

- Anti-vibration design for clearer vision
- Feature super-bright LEDs that are easy to see in the brightest sun
- Front amber LEDs work as both turn signals and running lights; bright red LEDs on the outer rim of the mirrored side function as turn signals
- Notifies when signal is left on (for bikes without self-canceling turn signals)
- Also feature crystal clear lenses and triple chrome-plated frames
- Simple bolt-on, plug-in installation; includes adapters for metric motorcycles; convex mirrored glass measures 3" x 5.5"

**NOTE:** Some Triumph models may require additional hardware.

**NOTE:** If you want to replace a bike's turn signals with these lights check your state's driving lights guidelines first. Legal usages differ state by state.

**NOTE:** These LED Turn Signal Mirrors are designed to "piggy-back" with stock turn signals. If you wish to remove stock turn signals and use these mirrors as replacements you will need to purchase a load equalizer to keep the mirror LEDs blinking in correct time.

**SUG. RETAIL.....\$249.00**

**PART # 0640-0525**

## ORIGINAL EQUIPMENT TIRES

### FOR SPORT, SPORT TOURING, CRUISERS AND STANDARDS

- The letter code in the tire size and rating column is also on the sidewall of the tire and the tire label; tires are the same size, but compound and construction will vary to suit the weight, horsepower and handling characteristics of the model for which each tire was designed
- H-rated for speeds up to 130 mph

**AIR HAWK 2**  
COMFORT SEATING SYSTEM

## AIRHAWK 2 SEAT PADS

- Unique inflatable, multiple-cell design for the ultimate in comfortable seating and vibration absorption
- Made from polyurethane and features a breathable, stretchable outer cover and a nonskid urethane base to protect your seat
- Feature open-mesh side panel to allow air circulation through individual air cells creating extra ventilation to reduce heat buildup
- Patented Shape Fitting Technology eliminates painful pressure points and promotes consistent blood flow for a longer, more comfortable ride
- Automatically adjusts to the shape of the rider
- Raises ride-height only slightly
- Securely fastens via double strap system running under seat or pillion
- Will not scratch or disfigure existing seat or pillion
- Valve for inflation, adjustment and deflation

PERFORMANCE FILTERS

## HIGH-FLOW REPLACEMENT AIR FILTERS

- Designed to increase horsepower and torque
- Accordion design provides increased airflow and optimum filtration
- Original K&N High-Flow Technology
- Application specific sealing bead ensures an air-tight fit
- See 2010 Parts Unlimited Street catalog for cleaners
- Made in the U.S.A. for over 35 years

## DRYCHARGER

### FOR KAWASAKI KLX450R 08-09 (ALL)

- This specially designed filter wrap is made to extend the service interval of K&N Filterchargers when used in dusty conditions
- Contains uniform micron openings like the K&N precharger, so air can get in but dirt and other contaminants cannot
- Silicone treatment deflects water splashed on the flame arrestor/air filter
- Uses sewn-in elastic opening to securely fasten to flame arrestor/air filter
- Custom fit

## BRAKE PADS AND SHOES

BY SBS

FOR BMW S 1000RR 10

- Parts Unlimited brake pads by SBS feature asbestos-free brakes using patented Unified Composite Technology (UCT)
- UCT technology completely blends all brake pad materials into a balanced, unified pad
- This balance ensures no hot spots, glazing, premature fading or excessive rotor wear
- The result is powerful, fade-free braking performance, even in extreme conditions

### STREETEXCEL SINTERED METAL PADS

- The best in sintered replacement pads for high-performance front (HS) and rear (LS) street applications
- Use advanced sintering process technology; perfect for sport riding
- The highest coefficient of friction in the lineup to provide maximum stopping power
- Formulation also offers high fade-resistance and quick cool-down under severe braking
- When you need to replace your worn sintered metal pads, choose STREETExcel; the sinter compounds with the power to stop you

### RACING DUAL CARBON

- Dual Carbon (DC) brake pads were developed in World Superbike, World Supersport and Grand Prix racing to deliver the highest levels of brake pad performance
- New DEST (Dynamic Energy Surface Treatment) eliminates bedding-in procedure and brake fade
- Full brake power after 8-10 stops; no thermal bedding required
- Consistent, powerful performance for the life of the brake pad
- Easy brake modulation and control; no rising friction curve at the end of a stop
- Initial brake pad bite is increased by 25% over current racing pad compounds
- Pads cause minimal wear on both racing stainless steel and cast iron discs
- Available for select high-performance applications

NOTE: NEVER use DC pads for street riding.

## DP BRAKES SINTERED METAL BRAKE PADS

FOR BMW S 1000RR 10

- DP Brakes brake pads are designed with sintered metal compounds to give your bike high-tech performance in all conditions
- Pads have a quick break-in period so you get maximum performance fast
- DP Brakes design and materials ensure consistent hard stops and fade-free performance
- Sintered metal compounds outlast more conventional organic or Kevlar® pads
- DP Brakes were rated #1 in Germany's *Motorrad* magazine and England's *Motorcycle News* in brake pad shootout tests

### STANDARD SINTERED METAL BRAKE PADS

- GG friction rated and made with DP Brakes' proven sintered metal material
- Gray-colored aluminum oxide-based ceramic material on rear of backing plate keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Pad compound gives equal performance in wet or dry conditions
- Ideal replacement for street and touring machines where durability is the prime requirement
- TUV/KBA approved to EEC braking regulation 13/05

BMW			
S 1000 RR 10	1721-1256	1721-1255	\$69.95

## SPORT HH+ SUPERSPORT PADS

- Powerful, industry-high HH+ friction rating with no mileage penalty
- High-tech ceramic heat shield eliminates brake fade
- Dust-free compound design
- Quick break-in so you get maximum braking ability fast
- For front wheel use ONLY!

### RACING SINTERED METAL PADS

- Pure racing pads, racetrack tested by professional race teams
  - Front (RS) pads deliver outstanding performance with an extreme coefficient of friction (0.65) and temperature level over 300°C
  - Dynamometer-tested to produce the best sintered racing pads available
  - Compatible with today's high-performance rotors
  - Available for a selective range of high-performance machines
  - Ideal pad choice for track days or stunt riding
- NOTE: NEVER use RS pads for rear brake applications.

### DUAL SINTER RACING PADS

- A new standard in road racing stopping power
- A true "full factory" performance race pad, developed and tested by World Superbike and Supersport factory teams
- Offers a strong initial brake "bite" and extended brake pad life; the ideal choice for endurance racing
- Available for the latest sport bikes and aftermarket calipers
- For track use ONLY!

## STORMRIDER HEATED BODYWARMER

- The warmest, safest and most durable heated vest on the market, but thin enough to be worn as a mid-layer (under an outer jacket of choice)
  - Uses breathable, lightweight, waterproof and windproof fabric called AirXtream®
  - The exo<sup>2</sup> FabRoc™ heated panel technology can even be hand washed
  - The heated panels are located at the lower back/kidney area and chest, maintaining a constant 50°C or 122°F temperature
  - Fused power cable (supplied) connects directly to the snowmobile (must be equipped with an electric start and a 12V battery) or use exo<sup>2</sup> Power Pack and Charger (see page 57 of the 2011 Parts Unlimited Snow catalog)
  - Can be used with an optional Stormrider Controller Unit providing nine levels of heat (see page 57 of the 2011 Parts Unlimited Snow catalog)
  - Bodywarmer draws approximately 4.1 amps at full power
  - Uses left hand zipper
  - Sizing is based on U.S. men's jacket sizes
- NOTE:** Heat operates in kidney area only when using the optional power pack.

## STORMWALKER HEATED JACKET

- The heated kidney/lower back area, new heated pockets and zip-off sleeves promote use as an outer layer in addition to an active mid-layer
- Made from superb windproof, waterproof and breathable Air Xtream® fabric, you can leave those mid-layers off and just enjoy your own personal climate control system
- Fused power cable (supplied) connects directly to the snowmobile (must be equipped with an electric start and a 12V battery) or use exo<sup>2</sup> Power Pack and Charger (see page 57 of the 2011 Parts Unlimited Snow catalog)
- Can be used with an optional Stormrider Controller Unit providing nine levels of heat (see page 57 of the 2011 Parts Unlimited Snow catalog)
- An excellent choice for passengers or for milder days/climates (heating to 43°C or 110°F)
- Jacket draws approximately 0.6 amps
- Uses left-hand zipper
- Sizing is based on U.S. men's jacket sizes

**SUG. RETAIL.....\$199.95**

DESCRIPTION	PART #

## HEATWAVE HEATED BACK SUPPORT

- Heated lower back support/kidney belt has elasticized nylon sections with hook-and-loop closure and pull-forward handles for a good, snug fit
- Use to ease the lower back muscle strains on long rides or through rough terrain
- Fused power cable (supplied) connects directly to the snowmobile (must be equipped with an electric start and a 12V battery) or use exo<sup>2</sup> Power Pack and Charger (see page 57 of the 2011 Parts Unlimited Snow catalog)
- Can be used with an optional Stormrider Controller Unit providing nine levels of heat (see page 57 of the 2011 Parts Unlimited Snow catalog)
- Back Support draws approximately 0.6 amps
- Sizing is based on actual waist measurement

## STORMSHIELD HEATED GLOVES

- Waterproof, windproof and breathable Porelle insert for comfort and safety
- Back and cuff are Cordura with cowhide leather water-repellent reinforcements
- Molded PVC knuckle protectors covered with Carbo-Leather
- Carbo-Leather reinforcements on cuffing and little finger
- Hook-and-loop wrist and cuff closure
- Visor wipe on each thumb
- Each glove draws approximately 0.6 amps or 1.2 amps for the pair
- Fused power cable, Y-splitter and long harness included, for use on snowmobiles with electric start and 12V battery
- Sizing is based on the circumference of the hand/palm just under the knuckles (not including the thumb)
